TO THE CLASS OF 1995

We have spent more than a decade together and it is surviving together for that time that has taught us to tolerate if not appreciate the many differences that exist in the world. Our class is very individualistic, comprised of many groups, some clashing, some intertwining, and some complementing each other. Though we may grow apart after graduation, we must draw on the knowledge that we have received from each other in order to survive. The choices that we will make will not be made easily, but the knowledge that we have gained and the relationships that we have made along the way will help us make the best personal choices. I will never forget you, you will live happily in my thoughts; and, when we see each other in the future, may our memories live again.

DEDICATEE 1995

Mary Louise McCarthy Cogswell Boyd was born on August 31, 1942 in Quincy Massachusetts. She is the oldest of nine children. She graduated from Oliver Ames High School in Easton Massachusetts in 1960. From there she went on to earn her Associate Degree from Bridgewater State College. On April 13, 1962 Mary Louise McCarthy married Peter Cogswell. They had three children; Michael, Debbie and Kristin. In January, 1973 MaryLou's husband died.

On May 5, 1984 Mary Louise McCarthy Cogswell married Frank Boyd. In her spare time she enjoys walking, reading, gardening shopping and her family. At this time she has six grandchildren. MaryLou has lived in West Bridgewater for the past thirty years, and she has worked at West Bridgewater High School since 1979.

MRS. MARYLOU BOYD

There is always one person who can make a bad day seem less grating, who can turn a frown into a smile. To the class of 1995, this person is Mrs. Marylou Boyd. She is more than a secretary, she is a friend. She never stops offering her help, willing to make a call or offer assistance in any way. She is always giving, and never asks for anything in return, striving to make everything perfect.

Mrs. Boyd was our one constant in an otherwise confusing year, and we would like to say thank-you for her dedication and constant welcome by dedicating our CLIMBER to her. It is very seldom that the person behind the scenes receives due credit, but we feel that Mrs. Boyd deserves it more than anyone, not only for her hard work, but also for her warmth and sincerity.

Thank you Mrs. Boyd

To the Class of 1995

Congratulations. Your graduation is a capstone of 13 years of becoming an educated citizen. Your learning journey does not end on graduation day. If we have done our job, you will be a life long learner, adept at using your mind well.

I challenge you to make the most of your talents and education to serve others. Consciously contribute to the enrichment of others as well as yourself. Always have a passion for excellence. As the new generation of the twenty-first century, you have the obligation to help make this world a better place. I have every confidence that West Bridgewater graduates will meet this challenge. My best wishes on a bright, rewarding future.

To The Members of the Class of 1995

Dear Members:

Congratulations upon your successfully completing the requirements necessary for earning a West Bridgewater High School diploma.

As I wish you success and happiness in your future endeavors, I realize that there is not a single recipe for either. I suggest you draw upon your potpourri of knowledge, experience, and wisdom acquired throughout your educational process; to learn something new each day, to improve your problem-solving skills, to set priorities in keeping with your goals, to use the best available resources to judge what is important, and to strive for positive results in all your undertakings. Maybe then, success and happiness will be yours to achieve.

Thank you for the many contributions you have made to your school and your community.

Sincerely,
S. Erick Benson

On behalf of the administration and the school community, I would like to thank this year's Seniors who have been part of the transformation that has led West Bridgewater to become a model school in the educational reform process. You have handled these changes with grace and maturity and have become role models yourselves for the underclassmen. We know that you will continue to be a credit to your community as you encounter the new challenges in the next phase of your life. May your future be as successful as your past.

Dr. Ann M. Papagiotas
Principal

To the members of the Class of 1995

Graduation from high school is a rite of passage that you have earned through your many years of hard work, but it is difficult to say goodbye to this senior class. I have known most of you since you were 7th graders a little awkward and timid, and I have watched you become confident adults ready to handle the complexities of college and careers. I hope you will always remember your teachers and your classmates here at West Bridgewater as we will remember you. You know that the doors to the school and my office are always open to you. We are proud to say you are from West Bridgewater. I wish you success and happiness on behalf of all of us.

Life is . . .
A challenge - meet it
A gift - accept it
An adventure - dare it
A sorrow - overcome it
A tragedy - face it
A duty - perform it
A game - play it
A mystery - unfold it
A song - sing it
An opportunity - take it
A journey - complete it
A promise - fulfill it
A beauty - praise it
A struggle - fight it
A goal - achieve it
A puzzle - solve it

ADVICE FROM THE FACULTY

BE ALIVE - Think freely, Smile often. Tell those you love that you do. Rediscover old friends. Make new ones. Hope. Grow. Give. Give in. Pick some daisies. Share them. Keep a promise. Laugh Heartily. Reach Out. Let someone in. Hug a kid. Slow Down. See a sunrise. Listen to rain. Trust life. Have faith. Enjoy. Make some mistakes. Learn from them. Explore the unknown. Celebrate life!

Nothing is achieved before it is thoroughly attempted.

Try your hardest and do your best.

Treat people with respect and they in turn will respect you.

As you face new challenges think back to the basics you learned growing up.

You control your own destiny — GO FOR IT!!

Befriend a college sophomore who can give you advice concerning classes, activities, etc.

Be aware, be concerned and take a stand!

VARIETY SHOW

The fact that some pro-life people deem it okay to murder an abortion doctor, but not okay to abort a fetus. (Brent)

The O.J. Simpson trial, because it shows me how these "superstars" are just real people inside. (Wagner)

The O.J. Simpson case. he trial has not affected me. What has affected me is the way the media can manipulate this country's citizens and judicial system. (Dave)

Lack of sleep in High School Students. I still think we should have nap time. (Bill S.)

The issue that affected me the most is the low, low speed limits. The price of tickets is starting to add up. (Jill)

Salary caps-I'll be making millions someday. (Jennifer S.)

The issue that affects me is the rising of candy prices. (Kate)

NOTHING. (Rashel)

Being politically correct. (Brian)

Violence because it is a major killer of teens our age. (Billy)

The fact that I could not play Lacrosse because I am not male/title 9 says yes. (Eve)

I feel AIDS will affect me more as I go to college. Being from this small town I've never known anyone with the disease, but when I'm out in the real world I won't know who has it and who doesn't. One of my new friends from college could have it, a guy I'm interested in, anyone. I just have to watch out for myself and do everything I can not to put myself at risk. (Lynne)

Healthcare and malpractice suits-if you can't trust your doctors with your health who can you trust? (Emily M.)

WHERE IS EVERYBODY?
fight to save endangere species

violence, People have to begin to realize that there's no need for violence. We need to choose our friends carefully and make decisions that aren't going to hurt in later life. Besides, there's always a time, a place to have fun. But violence is not the answer nor is it fun. (Anthony)

Racial Discrimination-even though I am white it bothers me that people make racial remarks about blacks. We are all equal. (Kristen)

The violence-living in a small town the violence is not bad, but going into the world may be a real shock. (Alison)

Pro-life activists-if they're so pro-life, why are they taking lives. (Jen F)

The issue of what's better "Nuclear Fission or Fusion..." Ponder that. (Jim S)

Political Correctness-it's out of control. Who really cares that much if you're short or vertically challenged? (Emily G.)

O.J. Simpson case. I think the only reason why it has affected me is because where ever you go you get reminded of either a great football player gone wrong. I don't think I will forget it because of all the media attention. (Melinda)

Remember who you are and where you came from, because sooner or later there will be temptations to change you! (Christy)

The junk virus is the biggest problem facing America today. (Stephen)

The information superhighway-It is going to change the way people live and do things completely and permanently. (Scott)

Discrimination-I feel that this will affect me more in the future because more and more people are becoming close-minded. Soon people aren't going to tolerate any kinds of differences. (Shannon)

Rising cost of Candy Bars. (Jay)
